ABOUT ME

Motivated and enthusiastic MCA graduate seeking an entry-level position in the IT industry. Skilled in Python, web development, databases, and front-end technologies, with a strong foundation in software development. A quick learner with excellent problem-solving skills, eager to contribute to organizational success while continuously enhancing my technical expertise.

EDUCATION

Master of Computer Applications (MCA) 2024-2026

ATME College Of Engineering , Mysuru, Visvesvaraya Technological University

CGPA : 8.8

Bachelor Of Computer Applications (BCA) 2021-2024

Mandya University, Mandya

CGPA : 8.52

PROJECTS

Project 1: “Wild Animal Detection and Movement Analysis Using Image Processing”

Developed an image processing system to detect wild animals and analyze their movement from captured images and videos.

Project 2: “Real-Time ATM Surveillance for Anomaly Detection Using Deep Learning and Blockchain”

Built an intelligent ATM surveillance system that detects suspicious activities using deep learning and secures records with blockchain technology

Project 3: “Emergency Blood Request and Donor Management System”

Developed a Python full-stack web application to manage blood donor records and emergency blood requests. Implemented an email notification system to alert eligible donors of hospital blood requests.

SKILLS

- Programming: [Python / Java / C / C++]
- Web Technologies: HTML, CSS JavaScript
- Database: [MySQL / SQL]
- Tools: Git, GitHub, VS Code

STRENGTHS

- Strong Problem-Solving & Analytical Skills
- Quick Learner with Continuous Learning
- Excellent Teamwork & Communication Skills
- Self-Motivated with Strong Work Ethic

CERTIFICATIONS

- Research Methodology and Intellectual Property Rights (IPR)
- Python Full Stack Development Internship
- Cloud Computing Course
- Front-End Development

LANGUAGE

- Kannada: Native language
- English: Fluent
